

Submitted by: Steering Committee of the
Northern California Nevada Conference
Earth Stewards

PROPOSED ADMINISTRATIVE ACTION
“Call for Environmental Education and Action”

Brief Statement of Purpose: To bring the concerns affirmed by the NCNC Annual Meeting in 2003 to the UCC General Synod in 2005 and to propose the establishment of a UCC Environmental Steering Committee.

Background Statement: In 2003 the Conference Annual Meeting affirmed the Earth Stewards’ Issue of Concern. We now propose that the Northern California Nevada Conference convey those concerns to the UCC General Synod in 2005 and recommend the establishment of a UCC Environmental Steering Committee, as contained in the attached Resolution entitled: “Call for Environmental Education and Action”. This Resolution has already been approved by the Rocky Mountain, Connecticut and Central Pacific Conferences. In addition, the Massachusetts Conference is also in the process of placing this Resolution on the Agenda of their Conference Annual Meeting.

Administrative Action To Be Voted: That the 2005 Annual Meeting of the Northern California Nevada Conference endorse and send to the General Synod in 2005 the attached proposed Resolution, entitled: “Call for Environmental Education and Action” and allow for minor editorial changes in the text.

(See the Annual Meeting 2005 Edition of *the Pacific*, pp. 14-15, for full text of the proposed Synod resolution.)
